Do you want to learn how to make an animated dog run, jump, and play? I have collected a step-by-step tutorial that will help you figure out how to make dogs using simple shapes to build their shape. This is an average animated lesson that children, teenagers and adults will enjoy. Even some younger children can draw rabbits if you are ready to help with the instructions. Enjoy! You can also enjoy this cartoon dog drawing beginners and this dog drawing lesson, as well as how to make a cartoon dog run, jump, and play Step 1 First make a curved line like this. Step 2 Then draw an oval shape for the dog's head. Also draw a small letter n as a shape for the dog's muzzle. Also draw a circle for the eye and a smaller circle in the eye for the pupil of the dog ... Leave space outside the circle for the highlight of the eye. Step 3 Now let's start drawing the dog's legs. The back leg is rotating. The green leg resembles the capital letter L. Step 4 To paint more. Draw a side letter u for the dog paw (in pink). Draw a green line, and then draw aside the letter T (in orange). Then draw a wavy line (in green). Step 5 Now draw the bottom of the dog's tail (in pink). Draw c as a shape for the back paw of the dog (in purple) and aqua giggly line for the back of the leg. Also draw the back front paw (in green)... He looks like j. Also draw a triangle as a shape for the dog's nose. Take a closer look at the dog's face. Draw the dog's mouth ... in the form of a sole (in pink) for the dog's mouth. Draw a curved line (in yellow). Draw a back ear of the dog (green triangle). Also draw the front ear of the dog (a look looks like a reverse letter J with part of the top missing). To make the dog look like a graphic, I put a lot of black for shadows. Take a black pen out and color in the shadows and make some leather lines as well. How did your dog drawing turn out? You will be amazed at how simple it is. Draw three circles, as you can see here. These These circles represent the head, chest and back of the dog's body. If possible, draw them in the same or similar position and distance side by side as in this photo. These first three circles will determine the shape and size of your cartoon dog. click the image to enlarge next to the main circle, draw an ellipse. This will form part of the dog's mouth. On the back, draw two more noodles, these are the outlines of the dog's thighs. Note that the noodles look like an egg up and down and another (far side) looks like beans. Now, join the ball on the chest and back ball along with a soft curved line. click on the image to enlarge Use similar slightly curved lines to join the chest head, head-mouth ... And... draw all four legs. In general, drawing animal legs can be a big challenge. But here, you should be able to do it easily. Now, you almost know how to paint a cartoon dog :) ... Well, not exactly yet. After a few details, we're almost there. click the image to enlarge draw the queue. As you can see, this dog is like terriers and terriers have short tails. Draw the eye and mouth. He has to smile because he looks friendlier. You don't mind if you make some little mistakes with a pencil here and there. It's a cartoon, not a portrait. Be calm. Whatever the outcome, it's okay. If you are not satisfied with it, you can draw a new - better. I always recommend drawing each photo at least 3 x (three times) so that you can remember the strokes and refine them. click on the image to zoom in now, delete any unnecessary help-guide lines that you drew at the beginning. Use an eraser if necessary, so we have a pencil-type eraser. After deleting all unnecessary lines, you will get a clean body structure of the cartoon dog. Do not forget to draw the ears :) click on the image to enlarge So far you have had mostly thin pencil lines. Now draw a clear outline. I used a soft pencil 4B. If you do not have such a soft graphite pencil, the usual HB is also OK. Click on the image to enlarge start working on the eyes. Make the black iris and leave the small shiny white dot in the middle – first, watch the eyes of the photo carefully! Darken the nose and work out the remaining parts of the body, as seen in the photo. You can also create your own version of a cute cartoon if you want. Use as much creativity as possible. If you have learned to draw then let's start drawing this running man. The previous cartoon dog just stood there smiling. It was quite easy to outline the outline and finish the dog's body. Running the cartoon dog is a little more complicated, as you can see. Before you start drawing, observe the finished image and try to just do a simulation in your mind how you will start drawing this running pose. When drawing cartoons, you can draw small inaccuracies, because these errors simply disappear or even better, they can add to the whole drawing an unexpected value. Therefore, you do not have to worry if your strokes are exactly the same as this drawing. Just calm down, trust yourself and start sketching the first outlines of a running cartoon dog. You can always paint the picture, this is not a contest or exam, so relax :) No one is perfect, and no one expects you to be perfect. Click on the image to zoom in now, let's learn how to make a dog on the go. This may seem difficult, but it is actually very easy, as you will see below. click the image to enlarge draw three ellipses in the same position as in this photo. One represents the dog's head, the middle is the body (abdomen), and the third is the back. The size and position of these ellipses will determine the size of your drawing. If this is your first drawing of a cartoon, I recommend drawing them in the same or very similar way as in this photo. click the image to enlarge the Ellipse with slightly curved lines. Note that the space between the connecting lines is different. The space of the neck is thinner, and the body is thicker. click on the image to enlarge draw the remaining parts of the body, all four legs and tail. You will get transparent - like a drawing that looks like a ghost. Here you can clearly see how to make the structure of this drawing. click on the image to enlarge Now, draw two round circles of the head ellipse. The vertical is the direction for centering the muzzle (mouth) part. The horizontal direction will help to insert the eye. Later, you will be able to draw without instructions. click the image to enlarge Start to delete all unnecessary lines so that you get a clearer picture. You see, learning to draw a dog is no big deal. In fact, it is very simple, if you know the basic technique. Now you know I'm :) click on the image to zoom in on the Design Eyes part, iris and be sure to leave a small white dot in the middle of the iris. Darken the open mouth. The tongue remains uncolored. Now you have a full and clearly delineated cartoon dog. click on the image to enlarge Now it's coloring time. I used only a soft pencil B4, but you can use colored pencils and make it even better :) Darken the ears, tail and tip of the Leave a little white spot so that it looks alive. Slightly shade the entire body, leaving the paws and abdomen white. Your cartoon dog is ready :) Home >Draw Cartoon Characters > Running Cartoon Dog Dog Dog
